

# GUITAR LOUDSPEAKERS

# G12H ANNIVERSARY

Re-released for our 70th anniversary, the G12H evokes the sounds of the classic 1960s and '70s rock bands.

Loud and proud thanks to its heavy magnet structure, the G12H provides a fusion of the Vintage 30 and the Greenback characteristics, producing a thick, warm and syrupy sound while still retaining a tight and focused bottom end.

When played clean, the speaker remains clear and musical without ever sounding harsh. In overdrive, pick attack is vividly articulated with sustained notes trailing off into warm harmonic tones.
